

Articulation & Enrollment Agreement
Between

**ROCHESTER INSTITUTE OF TECHNOLOGY
E. Phillip Saunders College of Business**

AND

MONTGOMERY COLLEGE

I. PURPOSE

The intention of this articulation agreement is to set forth the principles of mutual understanding that is necessary to form, maintain and communicate transfer articulation information between RIT's E. Phillip Saunders College of Business and Montgomery College's Department of Business. This information will allow students to make informed course selections which facilitate transfer mobility and baccalaureate degree completion. The established course equivalencies recognize the inherent quality of education at both institutions and provide students with the opportunity to efficiently and effectively complete baccalaureate degree requirements. The goal of this agreement is to meet the educational needs of transfer students, and to facilitate access for all qualified students.

A review of Montgomery College's current catalog (2016-17) has been conducted to determine the transferability of academic courses. This agreement establishes procedures to ensure admission of qualified transfer students from Montgomery College's Associate's in Art degree and RIT's Baccalaureate degrees in Business.

II. OBJECTIVES

1. To enable Montgomery College students who meet admissions requirements a prescribed sequence of courses to transfer to RIT.
2. To ensure transferability of credit for comparable coursework and credit equivalent learning applicable to the Business programs at RIT.
3. To encourage academic coordination and administrative interactions, including curricular and administrative collaboration.
4. To provide for the exchange of information on success and failures of this transfer program in order to improve this agreement.

III. TERMS of the AGREEMENT

1. Admissions. Students are expected to follow the application procedures for transfer students as outlined in RIT's current undergraduate catalog. Students applying to the College of Business program must meet the minimum cumulative grade point average of a 2.8, as calculated by RIT grading policy. Students who do not meet the minimum grade point average will be reviewed on an individual basis.
2. Transfer Credit. All courses accepted for transfer as specified in the transfer credit equivalency table will be applied to baccalaureate degree requirements as specified in this agreement at the point of transfer. Transfer credit can only be granted for courses completed with a grade of "C" or better. Completed courses below this level may affect the year standing of the applicant as described on the transfer credit equivalency tables.
3. Year Level. Providing all course equivalencies have been met as outlined in the attached materials, students will be granted third year status. *This includes students taking an additional HUMD or ARTT course along with a four credit science class with a lab.*
4. Program and Course Changes. Each institution shall communicate to the other any changes affecting this agreement and mutually manage any resultant change in articulation documents to facilitate its continuation.
5. Time Limits. This agreement will expire three years from the date of signing. Curriculum changes can be made as necessary (upon agreement of both parties) when each party is informed in writing. No additional signatures are necessary.
6. Maintenance. Appointed liaison officials will explore as appropriate the possibility to forming additional articulation programs that are mutually agreeable and in keeping with the basic components of this articulation agreement.
7. Communication. When specifically referring to this agreement and/or the corresponding institution by name in publications, electronic or print advertising, the initiating institution will secure in advance the prior written approval of the other.

8. Policy. Should the precepts of this agreement come in conflict with established policy at either institution, the established policy will take precedent and the agreement will be reviewed for possible modification as appropriate and mutually agreeable.
9. Termination. This agreement may be terminated by either institution with six months prior written notice, or sooner by mutual consent. Students in progress (enrolled) at Rochester Institute of Technology under the terms of this agreement at the point of its termination would be permitted to continue under the terms set forth.
10. This agreement represents the entire and integrated agreement between the parties and supersedes all prior negotiations, representations or agreements, either written or oral.
11. Both institutions agree to abide by all State of Maryland and/or State of New York laws, and the laws of the United State of America.
12. Both institutions agree to adhere to FERPA regulations.

V. APPROVAL

This agreement is executed by the authorized representatives of **Montgomery College** and **Rochester Institute of Technology**.
