Overall GPA of 2.0 is required to graduate

Total Credits:

* ENGL 101/ENGL 101A, if needed for ENGL 102 /ENGL 103, or NWIT or CMCS elective.

This curriculum provides students a broad coverage of technical understanding of computer technology, networking and security as well as the communication skills and professionalism required of all entry-level IT professionals. Skills included software and hardware installation, network configuration and diagnosing, security and forensics fundamentals, and virtualization and cloud computing implementation, with more of a "hands-on" orientation focused on scenarios in which troubleshooting and tools must be applied to resolve problems.
